

PHYS 231 Grading Scheme, Winter 2020

The grading scheme below represents the curved grade distribution from previous versions of this class. You will see that numerical range associated with each letter grade is shifted downward by about 5 points relative to a more standard scale. The average and median scores in 2018 were both 74, corresponding to a B. I intend that the median this year will also be a B.

B+	75–80
B	70–75
