**Prof. Michael S. Vogeley
Class Presentation Groups**

Following are your assignments for the class presentation. Here you will find a list of the members of your group, the topic of your presentation, and the date on which you will present. The groups were formed using your requests. The order of groups was chosen by using a random number generator. You should begin immediately to prepare for your presentation by contacting the other members of your group. See the "Class Presentation Guidelines" handout for instructions. Let me know immediately if you do not find your name below!
